using angularjs restrict directive which user want restrict

```
<!DOCTYPE html>
<html>
<script
src="https://ajax.googleapis.com/ajax/libs/angularjs/1.6.9/angular.
min.js"></script>
<body ng-app="myApp">
   <h3> Select checkbox which you want restrict </h3>
   Element :<input type="checkbox" ng-model="E"><br>
   Atribute :<input type="checkbox" ng-model="A"><br>
   Class : <input type="checkbox" ng-model="C"><br>
<element ng-show="E"></element>

<div atribute ng-show="A"></div>

<div class="class" ng-show="C"></div>

<script>
var app = angular.module("myApp", []);
app.directive("class", function() {
   return {
      restrict : "C",
      template : "<h1>directive invoked by Class</h1>"
   };
});
app.directive("element", function() {
   return {
      restrict : "E",
      template : "<h1>directive invoked by Element </h1>"
   };
});
app.directive("atribute", function() {
   return {
      restrict : "A",
      template : "<h1>directive invoked by Atribute </h1>"
   };
});
</script>

</body>
</html>
```
